PROFILE

I am a Front End Developer with 3 years of experience in the field. I have worked on several projects, gaining skills in React and Front End development in general, including testing phases with Cypress and Postman.

What I am most passionate about in this job is that I see it as a game and a continuous challenge to overcome obstacles. Every project represents an opportunity to improve and refine my skills, finding great satisfaction in solving complex problems and creating intuitive and engaging user experiences.

My goal is to continue developing my skills in a dynamic and stimulating environment, contributing to the success of projects and the growth of the company I collaborate with. I am particularly interested in new technologies and innovations in the field of web development.
